Queen wasp of the hivewings is a horrible queen (spoiler alert) she rules two tribes and only cares about one of them.
The best queen is probably queen Glory of the rainwings
If I had to chose between Burn,Blister, and Blaze to be the new sandwing queen I'd chose Blister because she is the smartest.

To be honest I hate queen scarlet because she made peril eat black rock just so she wouldn't leave.
My favorite is queen Glory because she challenged for queen to save rainwings she didn't know.

Queen Glacier is pretty underrated

Queen Glory of the rainwings and nightwings, and Tui sure gave me a scare in one of the books about her being dead, Most underated is the Leafwing Queen we haven't heard her name yet. Who is she? Do not tell me. Also least favorite was Scarlet and Wasp, I bet their related, echo, echo, related.
